# TERMS AND CONDITIONS OF SALE

1. This is a public auction sale conducted in Beverly Hills, California by bonded Auctioneers. The bonded Auctioneer is A-Mark Auction Galleries, Inc. d.b.a. Superior Stamp & Coin, An A-Mark Company (hereinafter referred to as "Auctioneer" and at times as "Superior.")
2. Bidding in this sale constitutes acceptance by the Bidder of all the Terms and Conditions of Sale stated herein.
3. The Auctioneer and Cataloguer reserve the right to include in any auction sale its own material as well as material from affiliated or related companies, whether or not any such material(s) is included in the catalogue. Superior may have direct or indirect interests in these, or other items, and may collect a minimum price from the Consignor in addition to the selling commission or any part thereof, mentioned elsewhere in these Terms and Conditions of Sale. **THIS PARAGRAPH SHALL BE DEEMED A PART OF THE DESCRIPTION OF ALL LOTS CONTAINED IN THE CATALOGUE.**
4. By bidding in this sale, the Bidder acknowledges as follows: Grading is an art and not a science. The grade herein represents the opinion of Superior based upon its experience. It is possible that two people will not always grade the same item alike. Also, as market conditions change, grading standards change, and will most likely continue to do so in the future. Each Bidder's own examination of the item(s) should be the criterion and not the grade represented by another. In any purchase or sale, the value of the item(s) is determined by the price. **THE PURCHASER HEREBY ASSUMES ALL RISKS OF VALUATION CONCERNING ANY AND ALL PURCHASES.**
5. Pursuant to a separate agreement with Superior, Consignors or their agents may be permitted to bid on their own lots in the sale and may receive a rebate commission in whole or part if successful. Under some circumstances, Superior may agree with a Consignor to not require the Consignor to pay in whole or in part for items bid upon or re-purchased by the Consignor, or when or where an advance has been made, to have the Consignor pay an agreed upon difference to Superior, or to offset against other transactions with Consignor. Where the Consignor has re-purchased a lot and the lot is either returned to the Consignor or otherwise dealt with or disposed of in accordance with the Consignor's direction, or pursuant to contractual agreement, Superior reserves the right to so note in the prices realized or to omit a price from the price realized. Every Consignor who registers to bid in the sale, whether to "protect" a lot, or for any other purpose, agrees to this Paragraph 5 and all other Terms and Conditions of Sale.
6. Superior may at its sole and absolute discretion, make loans or advances to Consignors and/or prospective Purchasers.
7. The Auctioneer may bid for his or its own account at any auction (even though it may not be required to pay a Buyer's Commission, or other charges that other Purchasers may be required to pay) and may have access to information concerning the lots and items contained therein that is not otherwise available to the public. Any conflict of interest or claim of competitive advantage resulting therefrom is expressly waived by all participants in the sale.
8. Due to the fungibility of the items sold, all lots may carry a reserve, a confidential price below which the Auctioneer will not sell an item or will re-purchase on behalf of the Consignor or for the account of Superior.
9. The Auctioneer may open the bidding on any lot by placing a bid on behalf of the seller, a Bidder by mail, telephone or telefax, or any other participant in the sale. The Auctioneer may bid further on behalf of the Consignor up to the amount of the reserve, by accepting bids from floor agents on the part of the Consignor, or any affiliated or related company of the Auctioneer or the Consignor, by placing successive or consecutive bids for any lot, or by placing bids in response to other Bidders. The Auctioneer may accept or decline any bid, or challenge to any bid or bidding increment, as he, in his sole discretion shall determine. It is unlawful and illegal for Bidders to collude, pool, or agree with another Bidder to pay less than the fair value for a lot. Bidders in the sale acknowledge that the law provides for substantial penalties in the form of treble damages and attorneys' fees and costs for those who violate these provisions.
10. This catalogue contains the description of property of multiple Consignors, and may include consignments from Superior, its principals, and affiliated or related companies and their employees, officers, or principals. All persons seeking to bid, whether in person, by an agent or employee, telephone, telefax, or by mail, must have a catalogue and register to bid at the auction by completing a registration card or by completing the bid sheet incorporated into the catalogue. By submitting a bid, whether in person, by mail, by phone, by telefax or through an employee or agent, the Bidder acknowledges receipt of the catalogue, that the Bidder has read the Terms and Conditions of Sale, the descriptions for the lots on which they have bid, and that they agree to adhere to these Terms and Conditions of Sale. No matter where signed, the agreement shall be deemed to have been made in California. The Purchaser acknowledges that the invoice describing a lot by number incorporates the catalogue by reference.
11. A Buyer's Commission of ten percent (10%) on each individual lot will be added to all purchases made by all Purchasers, except Consignors, regardless of Purchaser's affiliation with any group or organization, and will be based upon the total amount of the final bid, except for the Antiquities Section (Lots 6001 to 6144) where a fifteen percent (15%) Buyer's Commission will apply. The Buyer's Commission will be added to all invoices except for reacquisitions by Consignors in which case a reacquisition charge may apply. The reacquisition charge may be higher or lower than the Buyer's Commission and is determined by separate written agreement with Superior.
12. All material shall be sold in separate lots to the highest Bidder as determined by the Auctioneer. If any dispute arises during or immediately after the sale of a lot, Auctioneer shall have the right to rescind the lot offered and put the lot up for sale again. In all cases, Auctioneer's decision shall be final. For the Mail Bidder's protection, no "unlimited" or "buy" bids will be accepted. Superior shall have the right in its sole and absolute discretion to reject any such bid received.
13. Unless otherwise agreed in writing, auction sales are strictly cash in U.S. funds payable through a bank in the United States. Contact Superior for wiring instructions before sending a wire. Superior reserves the right to decline to release lots for which funds have not yet cleared. On any accounts past due, Superior reserves the right to extend credit and impose periodic charges as stated in these Terms and Conditions of Sale or on the invoice or statement. Purchaser agrees to pay reasonable attorneys' fees and costs required to collect on such past due accounts. Lots must be paid for the earlier of receipt of invoice or delivery. On any cash transaction or series of transactions exceeding \$10,000, Treasury Form 8300 will be filed.
14. No credit card purchases will be accepted. Bids will not be accepted from those persons under eighteen (18) years of age without a parent's written consent which acknowledges the Terms and Conditions of Sale herein and agrees to be bound thereby on behalf of the Bidder.
15. By bidding in this sale, Purchaser personally and unconditionally guarantees payment. If a corporation is the Purchaser, the officers, directors, and principals of the corporation hereby agree to personally and unconditionally guarantee payment as part of the corporation's agreeing to bid, and the corporate representative present at the sale shall provide Superior or its agent prior to the commencement of the bidding (or at the time of registration) with a statement signed by each principal, director and officer that they each personally and unconditionally guarantee the payment due Superior.
16. Floor Bidders and Mail Bidders who have not established credit with Superior must furnish satisfactory credit references or deposit at least twenty-five percent (25%) of their total bids for that session(s) or such other amounts as Superior may, in its sole and absolute discretion, require before such bids will be accepted. Deposits submitted will be applied to purchases and any unused portion of such deposit will be promptly refunded upon clearance of the funds.
17. Bids must be for an entire lot and each lot constitutes a separate sale. No lot will be broken up unless the Auctioneer otherwise determines. Lots will be sold in their numbered sequence unless Auctioneer directs otherwise.
18. **THIS IS NOT AN APPROVAL SALE.** All lots sold to the highest Bidder as determined by Auctioneer are final. Floor Bidders are encouraged to carefully examine all lots which they are interested in purchasing since **NO LOT PURCHASED BY A FLOOR BIDDER MAY BE RETURNED**, including those lots purchased where the Bidder is acting as an agent for another, or to Bidders by mail, telephone, or telefax, who have examined the lot(s) prior to the sale or had such opportunity. For bidders by mail, telephone, or telefax, who have not had the opportunity to view the lot(s), if the description of any lot in the catalogue is incorrect, the lot is returnable if returned within five (5) calendar days of receipt, and received by Superior no later than twenty-one (21) calendar days after sale date. No return or refund of an auction lot will be considered except for reason of lack of authenticity, unless provided for elsewhere in these Terms and Condition of Sale. All disputed lots must be returned intact as received in their original lotting container.
19. All prospective Bidders who are allowed the opportunity to examine lots prior to the sale, personally assume all responsibility for any damage they cause in so doing. Superior shall have sole discretion in determining the value of the damage caused which shall be promptly paid by the prospective Bidder.

20. a. All items offered in this catalogue are guaranteed to be genuine. This is a limited warranty that the item sold is not counterfeit, and that its date or mintmark has not been altered and that the coin has not been "repaired." Any other warranty is expressly disclaimed; Superior offers no representation that a numismatic item has or has not been cleaned; that any toning is natural or artificial; that any coin will meet the standards or grade of any independent grading service; that any item has a particular provenance or pedigree, or that a numismatic item is struck or produced in a particular style. Any statement concerning this is a matter of opinion only.
- b. All claims to the contrary must be made in writing to Superior within five (5) calendar days after receipt of material.
- c. Questions regarding the minting of a coin as a proof or as a business strike relate to the method of manufacture and not to authenticity.
- d. If a lot is to be returned, it must be housed in its original, sealed and unopened container.
- e. Late remittance or removal of any lot from its original container constitutes just cause for revocation of all return privileges for any reason.
- f. Superior shall not be bound by any prior, or subsequent opinion, determination or certification by any independent grading service and lots are sold under the condition that any claims to the contrary regarding grading, authenticity or methods of manufacture must be made in writing within five (5) calendar days of receipt of material.
- g. The descriptions contained herein represent the Cataloguer's good faith opinion, or the opinion of an independent grading service, as to the state of preservation and strike. When a grade from an independent grading service is utilized, Cataloguer has provided the information strictly for the convenience of the Bidder by mail, telephone or telefax. All Floor Bidders including agents for bidders are presumed to have viewed the lots bid upon, and warrant to Superior that they have examined the lots and ASSUME ALL RISK OF VALUE. All Floor Bidders acknowledge that Superior will rely on such warranty, and that the Auctioneer will decline to accept bids from a Floor Bidder who is known to have not, in fact, examined the lot prior to the sale. No warranty, whether expressed or implied, including a warranty of merchantability is made with respect to any grade description which is only an opinion that is likely to differ, even among experts. PURCHASER HEREBY ASSUMES ALL RISKS CONCERNING AND RELATED TO THE GRADING OF A LOT BY AN INDEPENDENT GRADING SERVICE.
- h. Grading or condition of rare coins may have a material effect on the value of the item(s) purchased; and the opinion of others (including independent grading services) may differ with the independent grading service's opinion or interpretation of Superior.
- i. All sales of items viewed by Purchaser in advance of a sale, even if the sale is by mail, telephone or telefax, and all lots bid upon by Floor Bidders, and all those presenting Superior with a resale certificate, out of state resale certificate, or similar evidence in acting as a dealer ARE FINAL AND MAY NOT BE RETURNED.
- j. All oral and written statements made by Superior and its employees (including affiliated and related companies) are statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of Superior has authority to vary or alter these Terms and Condition of Sale. Any alteration shall be effective only if in writing and signed by an officer of Superior authorized to do so.
- k. Bidders shall have no recourse against the Consignor for any reason whatsoever.
- l. Notwithstanding anything to the contrary in these Terms and Condition of Sale, COINS LISTED IN THIS CATALOGUE GRADED BY PCGS, NGC OR ANACS CACHET MAY NOT BE RETURNED FOR ANY REASON WHATSOEVER.
21. Superior reserves the right to open bidding for a lot at a reasonable price and to withdraw any lot at any time, even after the hammer has fallen, until the Purchaser has taken physical possession of the lot. No Consignor who has registered to bid at the sale (or at any other time unless otherwise provided in the consignment agreement), or any Purchaser or prospective Bidder shall have a right to claim any consequential damages if a lot is withdrawn, even after the sale.
22. When identical bids are received for a lot, preference is given to the first bid received as determined by the Auctioneer. A mail bid will take precedence over an identical floor bid; a Floor Bidder or Telephone Bidder must bid higher than the highest mail bid to be awarded any lot. Auctioneer reserves the right to refuse any bid, to reduce any mail bid received, to open the bidding of a lot at any level deemed appropriate by the Auctioneer and to determine the prevailing bid, at his sole discretion.
23. SUPERIOR IS NOT RESPONSIBLE FOR ERRORS IN BIDDING. A Bidder should make certain to bid on the correct lot and that the bid is the maximum (plus the ten percent (10%) or fifteen percent (15%) Buyer's Commissions) that he or she is willing and able to pay. Since other Bidders (by mail, telephone, telefax and in person) are present, and since a re-offering could damage the momentum of the sale, once the hammer has fallen and the Auctioneer has announced the winning Bidder, such Bidder is unconditionally bound to pay for the lot, even if the Bidder has made a mistake.
24. Sales tax, or any other tax, if required by law to be collected, postage, handling, and insurance plus the ten percent (10%) or fifteen percent (15%) Buyer's Commissions, and any other taxes required by law to be charged or collected will be added to the invoice for any lot(s) that is invoiced to successful Purchasers. On any tax not paid by Purchaser which should have been paid, even if not collected by Superior by mistake, error, negligence or gross negligence, Purchaser agrees to promptly pay the same on demand together with any interest or penalty that may be assessed. Purchaser grants to Superior or its assigns the right to offset any sums due, or found to be due, under these Terms and Conditions of Sale, or from sums due Purchaser by Superior, and to make such offset from any past, subsequent or future consignment, or items acquired by Purchaser in possession or control of Superior or from any sums due to Purchaser by Superior, and further grants Superior a purchase money security interest in such sums or items to the extent applicable, and agrees to execute such documents reasonably necessary to provide Superior with such security interest. Purchaser agrees that Superior and its assigns shall be a secured party with respect to items bought by Purchaser and in the possession of Superior, to the extent of the maximum indebtedness, plus all accrued expenses, until the indebtedness is paid. Purchaser grants Superior the right to file a purchase money security interest on such items without need for debtor's signature, and to assign such interest to any affiliated or related company or any third party deemed appropriate by Superior.
25. In the event of a successful challenge to the title to any goods purchased, Superior agrees to reimburse any Purchaser in an amount equal to the successful bid price actually paid by Purchaser at auction plus any Buyer's Commission actually paid, in full and complete satisfaction of all claims, which once tendered by Superior, relieves and releases Superior from any responsibility whatsoever to the Purchaser, even if the instrument is not cashed or is returned.
26. By bidding in the sale, (whether in person, by mail, telephone or telefax, or through an agent), Bidder expressly consents to the following Waiver and Release:
- Purchaser, for himself, his heirs, agents, successors and assigns, generally and specifically waives and releases, and forever discharges Superior, and its respective affiliates, parents, shareholders, agents, subsidiaries, employees, members of their respective boards of directors, and each of them, and their respective successors and assigns from any and all claims, rights, demands and causes of action and suits, of whatever kind or nature, whether in law or equity, whether known or unknown, suspected or unsuspected, which Purchaser may claim to have with respect to and/or arising out of, or in connection with any challenge to the title to any goods purchased, the sale itself, and/or the auction, except for reimbursement in the amount equal to any bid actually paid by Purchaser, plus any Buyer's Commission actually paid by Purchaser where such reimbursement is authorized in these Terms and Conditions of Sale.
- It is the intention of Purchaser that this waiver and release shall be effective as a bar to each and every claim, demand, cause of action and suit that may arise hereunder, and Purchaser hereby knowingly and voluntarily waives any and all rights and benefits otherwise conferred upon him by the provisions of Section 1542 of the California Civil Code, which reads in full as follows:
- "A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS WHICH THE CREDITOR DOES NOT KNOW OR SUSPECT TO EXIST IN HIS FAVOR AT THE TIME OF EXECUTING THE RELEASE, WHICH IF KNOWN BY HIM MUST HAVE MATERIALLY AFFECTED HIS SETTLEMENT WITH THE DEBTOR."
27. Title to any lot remains with Consignor, any secured party of the Consignor, or Consignor's assigns, as the case may be, until the lot is paid for in full by Purchaser. Superior reserves the right to require payment in full before delivering any lot to the successful Purchaser.

28. It is the Purchaser's responsibility and obligation to have the lots fully insured while in his or her possession. Purchaser assumes any and all RISK OF LOSS while the lot(s) is in Purchaser's possession.
29. If a dispute arises concerning ownership of a lot that has been bid upon, Superior reserves the right to commence a statutory interpleader proceeding at the expense of the Consignor and successful Purchaser and any other applicable party, and in such event shall be entitled to its reasonable attorneys' fees and costs.
30. In the event a successful Purchaser fails to make payment when due, Superior reserves the right to resell the merchandise, or to have an affiliated or related company do so. Purchaser agrees to pay for the reasonable cost of such a sale, together with any incidental costs of sale. Purchaser also agrees to pay the difference between the resale price and any previous disbursements, without limitations, including reasonable attorneys' fees and costs and expenses which may include the cataloguing of an item, and any other reasonable charges, including securing opinion of counsel if necessary. Any excess money realized from the resale shall first be applied to pay Superior its standard fees and commissions for a sale and the remainder, if any will be paid to the Purchaser.
31. If the auction invoice is not paid for in full when due per invoice terms, the unpaid balance will earn interest at the rate of one-and-one-half percent (1-1/2%) per month until it is paid in full. In the event this interest rate exceeds the interest permitted by law, the same shall be adjusted to the maximum rate permitted by law. Purchaser agrees to pay all reasonable attorneys' fees, court costs and other collection costs incurred by Superior or any affiliated or related company to collect past due invoices. Superior reserves the right to assign its interest to any third party.
32. All photographs in this catalogue are of the actual items being sold may not be the actual size and are not to scale.
33. Superior reserves the right to postpone the auction sale or any session thereof for a reasonable period of time for any reason whatsoever, and no Bidder or prospective Bidder shall have any claim as a result thereof, including consequential damages.
34. Neither Superior nor any affiliated or related company shall be responsible for incidental or consequential damages arising out of any failure of the Terms and Conditions of Sale of the auction or the conduct thereof and in no event shall liability for any such failure exceed the purchase price paid.
35. The sole remedy that any Purchaser in the auction shall have, whether bidding in person, by mail, by telephone, by telefax, or through an employee or agent, for any claim or controversy arising out of the auction shall be a refund of the original purchase price and premium paid, if any.
36. Upon payment of a disputed sum as determined by the arbitrators, but in no event greater than the original purchase price actually paid by Purchaser plus any commission or premium actually paid by Purchaser to Superior, and employees thereof, shall be deemed released from any and all claims of the Bidder arising out of or in connection with the sale of such property. Purchaser agrees to execute prior to delivery of any refund, any documents reasonably requested to effect the intent of this paragraph. Should the Purchaser decline to do so, Purchaser hereby grants to Superior a limited power of attorney to unconditionally effect such release.
37. Rights granted to Bidders and Purchasers under the within Terms and Conditions of Sale are personal and may not be assigned or transferred to any other person or entity, whether by operation of law or otherwise. Any attempt to assign or transfer any such rights shall be absolutely void and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Sale and terms of warranty on any Bidder or Purchaser. "Purchaser" shall mean the original Purchaser of the property from Superior and not any subsequent owner or other person who may have or acquire an interest therein. If Purchaser is an agent, the agency must be disclosed in writing to Superior prior to the time of sale, otherwise the benefits of the warranty shall be limited to the agent and not transferable to the undisclosed principal.
38. Should any third party attempt to utilize any warranties contained herein, they shall first give Superior thirty (30) calendar days written notice by U.S.P.S. Certified Mail, Postage Paid, Return Receipt Requested. Superior may, should it choose to, contest the third party's claim, and ask the American Arbitration Association to appoint a panel of three arbitrators skilled in the field to make such a determination at Los Angeles, California. By utilizing any warranties contained herein, the third party unequivocally and without reservation consents to binding arbitration, and its conclusive and binding determination of any alleged damages as a sole and exclusive remedy. With respect to any other pertinent matters, venue and personal and subject matter jurisdiction, said third party is bound to the provisions pertaining to Bidders and Purchasers, as otherwise provided for in these Terms and Conditions of Sale.
39. If the Purchaser fails to comply with one or more of these Terms and Conditions of Sale, then, in addition to all other remedies which it may have at law or in equity, Superior may at its sole option, either (a) cancel the sale, retaining all payments made by Purchaser as liquidated damages, it being recognized that actual damages may be speculative or difficult to compute, or (b) sell some or all of the property and (some or all other property, if Superior deems necessary, of the Purchaser held by Superior), in a quantity sufficient in the opinion of Superior to satisfy the indebtedness, plus all accrued charges. More than one such sale may take place at the option of Superior. Such sale may take place without notice to Purchaser. If Superior gives notice, it shall be by U.S.P.S. Certified Mail, Return Receipt Requested to the address utilized on the Bid Sheet, Auction Consignment and Security Agreement or other address known to Superior. Such sale will be at Superior's standard commission rates at public or private sale, within California, or at another location outside of California to be determined by Superior. At the time of sale the defaulting party shall not bid nor be permitted to bid. The proceeds shall be applied first to the satisfaction of any damages occasioned by Purchaser's breach, and then to the payment of any other indebtedness owing to Superior, including without limitation, commissions, handling charges, the expenses of both sales, reasonable attorneys' fees and costs and collection agency fees and costs and any other costs or expenses incurred thereunder. If a lot or item is not paid for, and is sold by Superior for Purchaser's account, in accordance with the Uniform Commercial Code, Superior shall not be required to account to the Purchaser for any excess proceeds. Purchaser is also liable to Superior if the proceeds of such sale or sales is insufficient to cover the indebtedness. If other property of Purchaser is also sold, any excess of proceeds will be remitted to the Purchaser after first deducting the expenses set forth above. If Purchaser fails to remit sums due to Superior, Purchaser grants to Superior a lien with respect to such sum, with interest to accrue thereon at the legal rate, until actually paid, which lien shall apply against any property of Purchaser, including any future goods of Purchaser coming into possession of Superior. To the extent permitted by law, Purchaser hereby waives all the requirements of notice, advertisement and disposition of proceeds required by law.
40. These Terms and Conditions of Sale and the auction shall be construed and enforced in accordance with, and governed by, the laws of the State of California, whether or not the auction is and Terms and Conditions of Sale are fully performed in California.

Purchaser agrees that any claim or controversy arising out of or relating to the formation, interpretation or performance of these Terms and Conditions of Sale and underlying transactions or the breach thereof, is subject to arbitration in accordance with the rules of the Professional Numismatists Guild. Arbitration shall take place in the County of Los Angeles in the State of California.

Subject to the above arbitration provision, Purchaser acknowledges and agrees that the competent courts of the State of California shall have exclusive jurisdiction over any dispute(s) arising hereunder, and Purchaser hereby agrees that any dispute arising hereunder shall be litigated exclusively in the courts of the State of California, and not elsewhere, regardless of any party's current or future residence or domicile. Purchaser further agrees that venue shall be in the Superior Court for Los Angeles County, in the State of California.
41. If any section of these Terms and Conditions of Sale or any term or provision of any section is held to be invalid, void, or unenforceable by any court of competent jurisdiction, the remaining sections or terms and provisions of a section shall continue in full force and effect without being impaired or invalidated in any way.

#### AS STATED IN THE TERMS AND CONDITIONS OF SALE

Certain lots may be reserved by the Consignor. If the Auctioneer identifies a Consignor bidding on his own property, an announcement will be made that the Consignor is now bidding. If the Consignor places a bid in the mail bid book and is successful, the Auctioneer will announce that the lot has been passed.

# The J. B. Parker Collection of Mexican Cap & Rays 8 Reales

## *An Introduction*

It has been my great pleasure to work with J. B. Parker since the mid-1970s in building the most complete mintmark, date and assayer collection of Mexican Cap and Rays 8 Reales coins ever assembled. From a mintmark/date/assayer standpoint, J.B.'s collection is missing only four dates, two of which were generally unknown, and had not appeared on the market until after J.B. ceased his major acquisitions a couple of years ago. Of these missing dates, two are unique and the others are known by only two specimens each.

Cataloguing this collection has been an eye-opening experience and an extensive undertaking. I have attempted to present and describe each coin as completely as possible. Since it is impractical from both a space and economic standpoint to photograph each of the coins in this great collection, the catalogue was written to be used alongside our book, *Resplandores: The Cap and Rays 8 Reales of The Republic of Mexico*. Many, if not most of J.B.'s coins are illustrated in *Resplandores*. These lots are noted with the designation of "(plate)" after the DP catalog number for coin photographs or "(variety plate)" for detail variety photographs. The background and rarity information found in *Resplandores* is more complete and informative than that presented in this auction catalogue.

With regard to estimates, I have endeavored to present fair market valuations that, in the spirit and tradition of Superior auctions, are biased to the conservative side. Anyone with a particularly strong desire to acquire any lots in this sale are encouraged to bid at or above the upper end of the estimate shown. I have been particularly conservative in evaluating the rare varieties as well as some of the great rarities. Since *Resplandores* should be the standard reference work on the subject for many years to come, even common coins that are identifiable as plate coins may have at least a modest added value, and certainly an important provenance attached to them.

— Mike Dunigan

# J. B. Parker

J. B. Parker has amassed the most complete collection of Mexican Cap & Rays 8 Reales coinage ever assembled. His first purchase of a Mexican coin came as a result of a friend from Ohio who asked him who the president of Mexico was. He told him that he didn't know. The friend thought it appalling that Parker, living in South Texas, 125 miles away from Mexico, knew very little about that country so close in proximity. He was properly chastised and shortly picked up several books on the history of Mexico. The more he read about this country, the more engrossed he became. Parker soon learned

that many historical characters of Mexico had their bust or portrait on a coin, such as the kings of Spain, Hidalgo, Morelos, Maximilian, Juarez, Madero, Cuautemoc, and others.

Parker thought it was fascinating that he could actually see the face of the people that he was reading about on coinage. It was at this time, in 1968, that he began collecting Mexican coins.

After years of collecting Colonial Pillars and Portraits, Liberty Cap Pesos, Balance Scale Pesos and Twentieth Century issues, Parker embarked on the almost impossible quest to collect by type, date and varieties, the Republic 8 Reales. Little did he know then what an enormous, but thrilling task that adventure would turn into.

Mr. Parker would like to acknowledge, in no particular order, the people who helped him along the way. Richard A. Long impressed upon him the importance of obtaining high grade coins instead of just filling a hole. Michael McCormick constantly kept him alert to new varieties to complete a series. Ralph Poucher gave him information about the coins that was not generally known, Richard Ponterio taught him patience by many times making him wait for better grade coins. Clyde Hubbard, J. D Underhill, Alex Siegel, Larry Goldberg, Harvey Bruns and many others assisted him in research and acquisitions of this series. Lastly, but most importantly, to Mike Dunigan. Mr. Dunigan not only supplied many of the rare coins of this period, but he has been a valued advisor and most important, a very good friend.

In 1990 Mr. Dunigan and Mr. Parker collaborated to produce the most comprehensive reference work ever written on this series. This book, *Resplandores Cap and Rays 8 Reales of the Republic of Mexico 1823-1897* was published in late 1997.

Mr. Parker has had many years of enjoyment in this pursuit and sometimes frustration. Fellow numismatist Miguel Munoz once told him many years ago, "Enjoy collecting the series that most interests you and when you have it as complete as you can make it, then it is time to give someone else the same pleasure that you have had." That time has come.

J. B. Parker was born in Corpus Christi, Texas in 1935. He is now retired from an office supply and furniture and design company that he formed in 1968. He still resides in Corpus Christi with Carolyn, his wife of 42 years and their two dogs. He is further blessed with three children and four grandchildren.

### DRAMATIC CLASHED DIE REVERSE

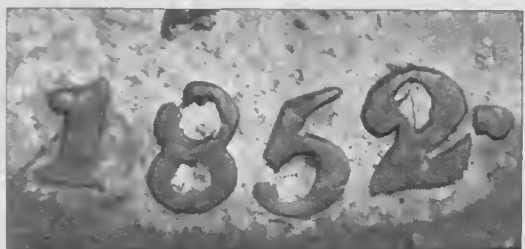

- 3105 MEXICO. Culiacan 1850 CE. DP-CN05 subvariety (reverse plate). An attractive subvariety with a dramatic die clash on the reverse. The result of this die clash is a dramatic "sunburst" effect with rays extending outward from the eagle. Nice Very Fine.. (\$150-250)

- 3106 MEXICO. Culiacan 1851 CE. DP-CN06. Very scarce as a date and very rare in high grade. This specimen probably came from a buried hoard. It is fully lustrous and Uncirculated in terms of wear with two small planchet flaws in the center of the obverse and reverse. There is a small stain at the rim on the reverse. (\$200-400)

- 3107 MEXICO. Culiacan 1852/1 CE. DP-CN07 variety (variety plate). A very bold example of this overdate. The 1852 is very scarce as a date and the overdate is much rarer than the normal date. Well struck, fully lustrous and almost defect free, this coin is probably the finest known example of the overdate. Toned Choice About Uncirculated.. (\$400-600)

- 3108 MEXICO. Culiacan 1852 CE. DP-CN07. A very scarce and underrated date that is rare in this grade. A very attractive example with the usual softness on the eagle. Lustrous Extremely Fine+.. (\$250-350)

#### EXCESSIVELY RARE 1854/3.

- 3112 MEXICO. Culiacan 1854/3 CE. DP-CN09 variety (variety plate). Sonora Cap and Eagle. Excessively rare. There are other dies for this issue that are heavily repunched or retooled in the date area and often attributed as overdates. - 3114 **MEXICO. Culiacan 1854 CE. DP-CN09. Sonora Cap and Eagle.** Very scarce. This specimen is very unusual in that it is well struck on the reverse. The Sonora Eagle is certainly the most impressive eagle design found in this series. Unfortunately, it rarely comes well struck on this issue and this issue and the only other issues on which it appears are extremely rare (HO 1861 and 1862). This is a rare opportunity for the type or design collector to acquire an example of this eagle at a reasonable price.

- 3268 MEXICO. Guadalajara 1287 FS, Error Date. DP-GA03. Excessively rare and one of only four known specimens. This coin as overstruck in Manila, probably with the MANILA/1828 dies. The mintmark, date and assayer are clearly visible while most of the remaining periphery is obliterated by the overstrike. The central devices (cap and eagle) are also clearly visible through the overstrike, the word MANILA appears weakly across the eagle. This assaying error was probably discovered and corrected rather quickly, accounting for the great rarity of this variety. The following lot in this sale is an example of the corrected obverse die.

Good to Very Good due to overstrike and wear.. (\$4000-6000)

# VERY INTERESTING AND EXTREMELY RARE VARIETY

3310 MEXICO. Guadalajara 1849/39 JG, Round 9 with Medal Axis. Die Style of 1825-1845. DP-GA31 (variety plate). Close examination provides some interesting information regarding this extremely rare variety. This is clearly an 1839 obverse die that was repunched with a 4. Since both obverse and reverse dies are of the Die Style used in 1839 and 1840, it is the cataloguer's belief that this coin was intended to be overpunched 40/39 and was actually minted in 1840! The error was probably found quickly and the die discarded since it also would have been necessary to change the assayer (to MC). This would explain the great rarity of this coin and the illogical reappearance of a pair of dies with a Die Style that had not been in use for four years. Very Fine.. . . .(\$500-750)

FAMOUS 1860 GUADALAJARA WITH DOT

- 3326 **MEXICO.** Guadalajara 1860 JG. Dot in Loop of Snake's Tail. DP-GA42 (variety plate). The history of this coin is an interesting story of minting and politics. In 1860, Mexico was embroiled in the Reform War. The forces of General Severo Castillo were being besieged in Guadalajara. In urgent need of specie, General Castillo requisitioned silver from churches and cathedrals in the city. He ordered it to be coined by the mint. On learning of this plan, General Pedro Ogazan ordered the mint director to not issue this illegal coinage. The director, however, had escaped and Albino Del Moral had become the acting director. In order to comply with the orders of his captors and at the same time undermine their plans, Del Moral engraved a small dot in the loop of the snake's tail under the right wing of the eagle. Now identifiable, General Ogazan decreed these coins to be spurious and prohibited from circulation. Probably as a result of this action few examples survived. This issue is extremely rare and this example is one of the finest of the few known specimens.

Extremely Fine to About Uncirculated.. . . . (\$5000-7500)

AN INTERESTING AND HISTORICAL OVERDATE

- 3330 **MEXICO.** Guadalajara 1863/4 JG. DP-GA45 (variety plate). A rare and interesting overdate. This coin was possibly minted by the Imperial forces of Maximilian who occupied the mint on 5 January, 1864. Since specie was needed to continue commerce, the Imperialists probably minted coins with the dies that were available in the mint, but dated these "REPUBLICA MEXICANA" coins to appear that they were made prior to the occupation. This would have been a practical, but face-saving solution.

## Mexico City Mint

VERY IMPORTANT FIRST ISSUE OF THE SERIES

3485 MEXICO. Mexico City Hook-Neck Eagle 1823 JM. Round Top 3. DP-Mo01 (plate). Hubbard-O'Harrow MO2 and MR2. Excessively rare with only about six specimens known. This is a very important coin since it represents what is most likely the first issue of the Cap and Rays 8 Reales. The Round Top 3 and the Full J are the same type of punches used on the 8 Escudos dies. This die (there is only one die for the Round Top 3) was probably delivered to the mint by the designer, Jose Guerero, for use while he was completing the order for working dies. This is a rare opportunity to acquire one of the most important 8 Reales of the series. Of the few known specimens this is one of the finest. Well struck Extremely Fine or better. This coin was heavily polished at one time, but over the years light toning has greatly enhanced its appearance. There appear to be old scratches around the assayer and 10D, but close inspection reveals that these depressions were in the planchet prior to the coin being struck. . . . .(\$4000-6000)

- 3486 MEXICO. Mexico City Hook-Neck Eagle 1823 JM. Flat Top 3. DP-Mo01 (plate). Hubbard-O'Harrow MO5 and MR5. This coin is a later die state with a die break from a ray through the 3. Scarce first year of issue. Light toning, softness on eagle. Extremely Fine.. . . . (\$500-750)

- 3487 MEXICO. Mexico City Hook-Neck Eagle 1824 JM. DP-Mo02 (plate). Hubbard and O'Harrow MO13 and MR13. Large 4 in date and prominent repunching of 8R. Slight doubling on reverse that is most evident in the cacti on the right side. Small reverse rim bump.

## Oaxaca Mint

### EXTREMELY RARE FIRST OAXACA ISSUE

- 3563 **MEXICO. Oaxaca (O) 1858 AE. DP-OA01.** Extremely rare, probably less than a dozen specimens are known. Although worn this specimen exhibits an above-average strike for this usually crude issue.

Decent and Almost Very Fine.. . . . (\$4000-6000)

### EXCESSIVELY RARE ONE YEAR TYPE

- 3564 **MEXICO. Oaxaca (O) 1859 AE. Eagle of 1858-1859. DP-OA03.** Excessively rare with only about four specimens known. This coin was struck from the same reverse die that was used on the previous lot. This coin was probably struck while the reverse die of much finer style that is normally seen on the 1859 Oaxaca was being made. As further evidence of early production, the obverse die break which is always present on coins of this date is in its early stages of development.

Fine.. . . . (\$2000-3000)

- 3565 **MEXICO. Oaxaca (O) 1859 AE. Eagle of 1859-1860. DP-OA03.** Rare. This coin features a seldom encountered major die break on the reverse that begins on the rim at 1 o'clock and tranverses the coin diagonally and ends in the oak leaves at 7 o'clock. Fine.. . . . (\$300-400)

### NICE EXAMPLE OF A ONE YEAR TYPE

- 3566 **MEXICO. Oaxaca (O) 1860 AE. Eagle of 1859-1860. DP-OA04 (plate).** Rare as a date and very desirable as a type coin. The distinctive cap style with tightly clustered rays and a prominent star at the beginning and end of the obverse legend make 1860 Oaxaca a separate type. This specimen is well struck on both the cap and eagle and defect free, making it unusual and highly desirable. An interesting side note: the reverse die for this coin is the same as the previous lot (1859 Oaxaca) with the prominent die break. Lightly toned. Choice Extremely Fine.. . . . (\$800-1200)

- 3567 **MEXICO. Oaxaca (O) 1860 AE. Eagle of 1860. DP-OA04.** Despite moderate weakness in the center this is an attractive example of this very rare variety. The Eagle of 1860 is much rarer than the Eagle of 1859-1860 and attractive examples are few and far between. Struck from misaligned dies. Very Fine with attractive toning.. . . . (\$750-1000)

*The following excerpt from Resplandores is reprinted here in an effort to help the reader understand the method and rationale behind the cataloguing of this interesting and often confusing period of Oaxaca coinage.*

### The Eight Reales Coinage of Oaxaca: 1861-1864

During this brief four year period, the coinage of Oaxaca provides the numismatist with a wealth of variety, a large measure of confusion and numerous unanswered questions. Collectors and catalogers have long been confused over how to organize the coinage of this period. There are three different mintmarks and two assayers. Some have chosen to organize by date and then note the mintmark variety and assayer for each coin. Others have preferred to list the coins by mintmark and then by date and assayer under each mintmark.

For years we wondered how and why any mint could produce coins so drastically different in style, fabric, and quality. Why would they use two mintmarks in some years and three in another?

There were the extremely crude issues of 1861 and 1862 with the a inside O mintmark and the FR assayer. At the same time there was a nicely styled and much better executed issue that had the O mintmark also with the FR initials. In 1863 the issue with the O mintmark and the FR initials continued in the same style of the two previous years, but there appeared three different coins with the assayer's initials AE. One was nicely styled and deeply engraved with the a inside O mintmark. Another, which was also nicely styled and bore some similarity to the preceding coin had the unusual mintmark of an a above the O. The two preceding coins are very rare and seldom encountered, but the third coin, which also bears the assayer's initials AE, has only the O mintmark. This last coin is nicely styled with good die workmanship. It is similar to, but better executed than the a above O mintmark issue of the same year.

In trying to organize this in a satisfactory way, we kept running into a wall. When we tried to sort by date nothing made sense. When we tried sorting by mintmark the styles didn't match up and overlapped. Sorting by assayer was equally fruitless. In short, nothing made any logical sense. Finally, out of frustration, we decided to practice what we preach and listen to the coins. Often if you stop, look and listen, the coins will explain themselves. This is especially true if you ignore the obvious and bypass traditional logic.

To make a long story short, it became apparent that there were two mints working simultaneously in Oaxaca. Both of these mints were striking coins from 1861 through 1863 and operating under the same assayer in 1861 and 1862. Their equipment would have been very different, accounting for the major differences in quality and style.

The first of these mints produced the crude 1861 and 1862 issues with the a inside O mintmark (ⓐ) and later the three 1863 AE issues. We consider this the first mint because it is our theory, based on the mintmark (ⓐ) and the fact that production seems to have continued uninterrupted, that this is the mint where the previous Oaxaca coinage was struck. We have no explanation for the marked deterioration in style between 1860 and 1861.

The second mint probably opened in the latter part of 1861. We base this on the relative rarity of the 1861 issue. The mintmark change to O (no a) was undoubtedly to identify the new mint. The mint operated, apparently continuously, from 1861 to 1864 maintaining the same Die Style and most likely using the same punches. All issues from this mint bear the assayer initials FR.

#### RARE AND CHOICE OAXACA 1861 FR

- 3568 MEXICO. Oaxaca (O) 1861 FR. Die Style of 1861-1864. Struck at the Second Oaxaca Mint. DP-OA05 (plate). A rare date that has long been very underrated. This is an attractive, highly lustrous specimen of a coin that usually appears dull and grainy. About Uncirculated.. . . . (\$1000-1500)

- 3569 MEXICO. Oaxaca (ⓐ) 1861 FR. Die Style of 1861-1862. Struck at the First Oaxaca Mint. DP-OA06. A decent example of a usually crude coin. Extremely Fine, usual soft center.. . . . (\$200-300)
- 3570 MEXICO. Oaxaca (ⓐ) 1861 FR. Die Style of Oaxaca 1861-1862 FR. Struck at the First Oaxaca Mint. DP-OA06. An interesting sub-variety where the eagle was double punched into the die. Decent Very Fine. . . . . (\$150-200)

EXCESSIVELY RARE OAXACA 1862/1 FR

- 3571 MEXICO. Oaxaca (O) 1862/1 FR. Die Style of Oaxaca 1861-1864 FR. Struck at the Second Oaxaca Mint. DP-OA07 (plate) An excessively rare overdate. Toned Very Fine to Extremely Fine.. (\$300-400)

- 3572 MEXICO. Oaxaca (O) 1862 FR. Die Style of Oaxaca 1861-1864 FR. Struck at the Second Oaxaca Mint. Sharply struck in the centers with planchet crudeness that is typical of this issue. Brilliant Uncirculated.. (\$250-350)

- 3573 MEXICO. Oaxaca (O) 1862 FR. Die Style of Oaxaca 1861-1864 FR. Struck at the First Oaxaca Mint. DP-OA08 (plate). An exceptionally choice example of this date. The 1862 tends to be cruder than the 1861, but this example is the exception. Scarce to very scarce as a date, but very rare in this condition. Well struck with light golden toning. About Uncirculated.. (\$400-600)

This coin was minted from the same reverse die with the double punched eagle that was described above for the last Oaxaca 1861 FR.

- 3574 MEXICO. Oaxaca (O) 1863 FR. Die Style of 1861-1864 FR. Struck at the Second Oaxaca Mint. DP-OA09 (plate). Some softness on eagle. Extremely Fine.. (\$75-125)

VERY RARE OAXACA 1863/8

- 3575 MEXICO. Oaxaca (O) 1863/8 AE. Die Style Unique to 1863. Struck at the First Oaxaca Mint. DP-OA10 (plate). Very rare date. This is the first high quality issue produced by the first Oaxaca mint since 1860. When the die was being manufactured an "8" was punched in place of the "3" and then overpunched with a "3". As the die wore and the overpunched "3" began to fill in, the date appeared to be "1868" rather than "1863". This has led to much confusion and misattribution of this date. This example is from an early die state with a clear "3" and, therefore, in the cataloguer's opinion, more desirable.

Sharply struck Extremely Fine.. (\$2500-3500)

VERY RARE MINTMARK TYPE

- 3576 MEXICO. Oaxaca (O) 1863 AE. Die Style Unique to this Issue. Struck at the First Oaxaca Mint. DP-OA11 (plate). Very rare as a date and extremely important as a one-year mintmark type.

Choice Extremely Fine to About Uncirculated.. (\$3000-4000)

- 3577 MEXICO. Oaxaca (O) 1863 AE. Die Style of Oaxaca 1863 AE. Struck at the First Oaxaca Mint. DP-OA12 (plate). This is the third and most common issue of the first Oaxaca mint in 1863. It is also the only issue of this mint, at this time, to use a flat top 3. Scarce as a date. Sharply struck and light toned. About Uncirculated.. (\$100-150)

- 3578 MEXICO. Oaxaca (O) 1864 FR. Die Style of Oaxaca 1861-1864 FR. Struck at the Second Oaxaca Mint. DP-OA13 (plate). Possibly the last issue of the second Oaxaca mint. It is probable that some coins of this date were minted during the occupation of Maximilian's which lasted from February 8, 1865 until September 12, 1866. Sharply struck and toned. Lacking the crudeness often seen on this issue. About Uncirculated.. (\$75-125)

3587 MEXICO. Oaxaca 1876 AE (3 examples). Cap Style of 1873, Cap Style of 1875 and Cap Style of 1876. DP-OA21 (all plate coins). The Cap Style of 1873 is scarce. The first and last are Extremely Fine and the second is Brilliant Uncirculated. Lot of 3 coins. .... (\$150-250)

## San Luis Potosi Mint

### IMPORTANT FIRST ISSUE OF SAN LUIS POTOSI

- 3597 **MEXICO.** San Luis Potosi 1827 SA. DP-P101 (plate). Contrary to the long accepted attribution as a pattern, this issue is the first 8 Reales minted in San Luis Potosi. Examination shows the Die Style, fabric and minting are identical to the other 8 Reales of the period. The only difference being the use of SA to designate the assayer, Juan Sanabria and its position in the legend. The SA was changed to JS and moved to the right of the date, probably to conform with the law and the coins being issued by the other mints. An excessively rare coin with great importance as the first 8 Reales of the Potosi mint and as a one-year type due to the arrangement of the obverse legend. Only three specimens are known. Very Fine, two planchet flaws.. .(\$15,000-UP)

Designed by William Wyon, whose initials (WW) appear after the date. One of the earliest and most beautiful patterns of the Republic of Mexico, this is a classic piece.

It is interesting to note that the mintmark is a small o above the G. This style was never used on Guanajuato 8 Reales.

### VERY IMPORTANT DURANGO PATTERN

- 3748 **MEXICO.** Durango Mintmark. 1831 RL. Struck in copper with a normal coin edge. KM-Unlisted in copper (sim. to Pn19). Red and brown Uncirculated.. . . . (\$2000-3000)

### Two Royal Mint Patterns

Toned Proof.. . . . (\$1500-2000)

- 3749 **MEXICO.** Durango Mintmark. 1840 O.M.C. Struck in base metal, perhaps German silver with a reeded edge. KM-Pn40 (not silver). An attractive pattern of unknown, but certainly European, origin. The assayer's initials, "O.M.C.," are possibly those of the engraver. The reverse is rotated 270 degrees. Toned Extremely Fine.. . . . (\$1000-UP)

- 3747 **MEXICO.** Potosi Mintmark. 1829 JS. Struck in bronze with a normal coin edge. KM-P16a. A copper striking of the previous lot. Also, probably produced at the Royal Mint in London.

Choice brown Proof.. . . . (\$400-600)

*Three Soho Mint Patterns*

- 3750 **MEXICO.** Guanajuato Mintmark 1843 PM. Struck in silver with a reeded edge. KM-Unlisted in silver (similar to Pn43). Weight 27.96 grams. - 3751 **MEXICO.** Guanajuato Mintmark 1844 PM. Struck in copper with a reeded edge. KM-Pn46. Weight 22.23 grams. Probably produced at the Soho Mint, Birmingham, England. The style and manufacture is identical to the previous lot.

Brown Proof.. . . . . (\$1000-1500)

- 3752 **MEXICO.** Mexico City Mintmark 1843 MM. Struck in an unidentified white metal that was possibly silver plated. Plain edge. KM-Unlisted in this metal (similar to Pn44). Weight 28.73 grams. Probably produced at the Soho Mint in Birmingham, England. This pattern is of the same style and manufacture, except for the plain edge, as the Guanajuato mintmark patterns of 1843 and 1844. Striking, but not brilliant.

Toned Proof.. . . . . (\$1000-1500)

INTERESTING HERMOSILLO PATTERN

- 3753 **MEXICO.** Hermosillo Mintmark 1882 JA. Struck in silver with a normal coin edge. KM-Pn96. The origin of this pattern is unknown. With the exception of the obverse legend, both obverse and reverse dies are identical to the William Wyon pattern for Guanajuato in 1827. There is some reason to speculate that these may have been produced in Hermosillo since the letter and numeral punches used on the obverse are identical to those used in Hermosillo from 1876 through 1880. Furthermore, the striking quality, as evidenced by the weakness or lack of details on the border, indicates that these pieces were produced from machinery inferior to that of the Royal Mint, where the Wyon patterns were produced.

Based on the appearance of the regular issue coinage, it is clear that Hermosillo's minting equipment was deficient. On the other hand, all specimens that this cataloger has been able to trace have come from Europe and most from England.

Toned Proof.. . . . . (\$4000-6000)

- 3754 **MEXICO.** KURTZ Pattern. Undated (1850). Struck in silver with a plain edge. Produced in Paris, France (for Mexico). Minor mishandling evident under toning. Toned Proof.. . . . . (\$400-600)

Trial Strikes

POSSIBLE TRIAL STRIKE OF THE FIRST GUADALUPE Y CALVO 8 REALES

3755 MEXICO. Guadalupe y Calvo 1844 MP. DP-GC01. An impressive and interesting coin that the cataloger believes to be a trial strike. This coin was struck on a planchet with a regular coin edge. The coin was struck with such force and obviously no type of collar or containment that it expanded well beyond the denticles and perimeter of the die. Very Fine.. (\$1000-1500)

COPPER TRIAL STRIKE

3756 MEXICO. Mexico City 1860 TH. Trial Strike in copper. From the dies for DP-MO47. This piece is struck from mint dies and is unquestionably unlike the frequently encountered and often deceptive contemporary counterfeits. Very Fine.. (\$300-400)

## Rare Patterns of the Caballito Design ("Liberty on Horseback") for the 50 Centavos and One Peso, 1908, 1909 and 1911

In 1907 the government of President Porfirio Diaz commissioned French engraver Charles Pillet to design a special coin to commemorate in 1910 the centennial of the beginning of the War for Independence. Mr. Pillet first submitted a pattern for a 50 centavos piece dated 1907 for which he was paid \$1,935.73. A second pattern of the same denomination, dated 1908, also exists. The 50 centavos coin was never minted for circulation.

Patterns of one peso dated 1908 and 1909 were submitted at a later date by designer Pillet. Both the obverse of the 50 centavos and the peso show the Mexican national emblem depicting an eagle holding a snake. The reverse, Liberty on Horseback, is known popularly in Spanish as the "Caballito," or Little Horse. All original Pillet patterns have the designer's name CH PILLET, the word ESSAI and edge milling in relief with the legend INDEPENDENCIA Y LIBERTAD. They were produced in France and sent to Mexico.

The new coin design represented radical departures from coins struck in the Mexico City mint from 1536 to 1909 in that the Liberty on Horseback pieces do not have the Mexico City mintmark or initials of the assayer(s) who were responsible for the amount of silver in the alloy. Republican coins of the period 1823-1909 also specified silver fineness either in terms of dineros and granos, or in decimal form. Although the new coins did not bear any indication of silver content they represented no change in weight or fineness from the Cap and Ray one peso coins minted in 1909.

According to the official mint report for the fiscal year 1908-1909, master dies, punches and an edge milling device were received from Pillet in April, 1909. It was noted that all patterns had the edge legends in relief which presented a production problem. The Mexico mint had to decide whether to modify existing machinery—an expensive process—purchase new machinery or change the proposed relief legends to incuse type. Officials opted for the more economical third alternative.

Mr. Pillet was paid \$2,710.02 for his work on the patterns for the one peso coin. Production of the new 1910 Liberty on Horseback coins was initiated on January 21, 1910. In April of the same year, mint employee Francisco Valdes was sent to Paris to confer with Mr. Pillet about possible minor changes in design, part of which involved lengthening the lower-left short ray where the name CH PILLET had appeared on the patterns. The French did not have the equipment to provide an easy solution. Sr. Valdes consulted with Mexican Finance Minister Limantour who happened to be in Paris and was advised to take the problem to Charles Barber, Chief Engraver of the U.S. Mint. Barber estimated a cost of \$1,000 and was authorized to do the corrective work. This accounts for the most noticeable change in the 1911 peso coinage, some of which is of the short ray variety and some of the new long ray type which continued through 1914.

- 3811 MEXICO. Carlos and Johanna, 1536-1572. Three Reales, ND (Struck only during 1536-1537). Nesmith-5d. Hammered Silver; 10.12 grams. KAROLVS ET IOHANA is mostly very clear. Totally natural surfaces and without corrosion nor a hole nor scratches. Fine or better. . . . . (\$6000-UP)

In May of 1535, Carlos I of Spain decreed that a mint be opened in Mexico City. Such occurred almost exactly a year later with renowned Francisco del Rincon serving as the first assayer. The three reales was the largest denomination authorized; it proved to be too similar in size to the two reales and was replaced after less than two years by the larger 4 Reales. Two primary varieties exist; most have three dots to indicate the value of three reales. Less than a dozen are known with three bars as used by the Romans. These "three bars" or "three sticks" issues are mostly salvaged from the ocean or Gulf of Mexico. This piece has no such flaws nor did it ever suffer the indignity of being holed. Its strike was a bit uneven causing the flan to wear unevenly; this is visible from both sides at the same point. This well-pedigreed example was specifically mentioned by Nesmith as he studied the Francisco Angert collection in the 1950's. It was first publicly offered by Almanzar in August of 1972, at which time it gained widespread publicity after being purchased by Pat Pace for \$5600. Since then it has been in two other famous collections.

This highly symbolic issue was also produced as a klippe and a double taler; this single taler in round form is by far the rarest of the three. We believe that only one other example has been offered since this piece was sold in 1980. The coin has very attractive light toning which highlight the bold full strike; light old tooling is barely visible in the fields.

Very rare countermark, full and unusually clear, especially for a salvage specimen, from the Maravillas, sunk in 1656 off Grand Bahama Island. Only two fair-to-poor specimens of this countermark (both 8 reales) were offered in the big Maravillas sale by Schulman in December of 1974. The misspelled King's name (PH) ELIPVS in the legend identifies this coin as pre-1651, and the assayer-mark to the right of the shield indicates post-1649, hence it must be 1650 (unlisted in CCT), although the date is not visible on this coin.

5329 **BOLIVIA. Philip IV. Cob 8 Reales, 1651-O (Potosi).** CCT-427; SS-P35. Crowned-P revaluation countermark on cross side. Salvaged.

Very Fine. .... (\$500-750)

Very rare countermark, nearly full and unusually clear, especially for a salvage specimen, from the Maravillas, sunk in 1656 off Grand Bahama Island. Only one poor, undated specimen of this countermark was offered in the big Maravillas sale by Schulman in December of 1974.

As the European powers competed to gain economic advantage through the exploitation of overseas colonies, it became apparent that use of specific trade coinage would serve a second purpose by advertising the existence of the home nation (much as a newspaper would do in the next era). With Spain the world's leading naval power prior to 1588, the other nations were forced to act much like pirates as they tried to garner influence and wealth. After the defeat of the Spanish Armada, Great Britain produced its Portcullis coinage in December of 1600. A very few months later, the Compagnie Van Verre in Amsterdam struck a similar series of silver coins at the Dordrecht mint which were intended to emulate the Spanish real series. Those issues by mintmaster Jacol Jansz de Jonge were distributed by the famed Vereenigde Oostindische Compagnie (VOC) which became powerful shortly after being formed in 1602. Of the eleven examples of this type believed to be in private hands, no others are known in a finer state of preservation. Although not struck in a collar, this piece appears to be fully round and with minimal stress evident. The pedigree includes years in the holdings of Randolph Zander as well as the Johnson and Craig family collections.

## NEAR EAST AND EGYPT

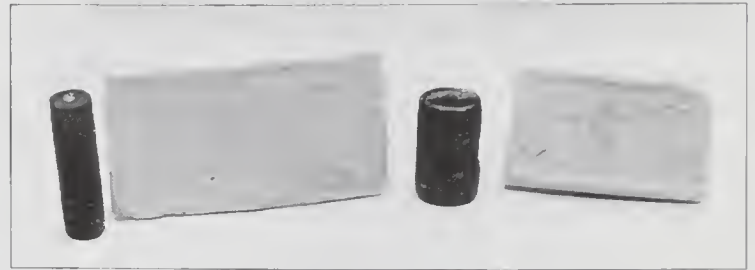

6001 **Figurine in Ivory.** Mesopotamia or Western Iran, ca. mid- or later 2nd millenium B.C. Small slim figure of a deity carved in ivory. The absence of a beard and the care in the detailing of the chest might suggest a goddess — bare breast- ed? The figure stands with arms tight against the body, hands upon stomach, and feet together. The figure is dressed in long belted skirt and peaked hat. Surfaces good, with honey col- ored patina. Height: 2.75". *Minor repair, some very slight flak- ing, otherwise intact and fine.*

Estimated value ..... \$500-750

6002 **Cappadocian Cylinder Seal in Hematite.** Anatolia, Cappadocia, 19th-18th century B.C. Adoration scene with three worshippers facing Shamash, who stands in ascending pose. The god holds a saw and wears a tiered miter. The three adorants, each in long robes and holding on hand raised before them. In field, a profile head(?) and hand(?). Length: 18 mm; on custom display stand with attached rolled impres- sion in clay. *Intact with slight wear; makes sharp impression.*

Estimated value ..... \$300-400

6003 **Two Cylinder Seals in Black Serpentine.** Cappadocian and Early Neo-Assyrian, ca. 18th and 10th centuries B.C. First, Cappadocia, Anatolian Group, 18th-17th century B.C. Broad cylinder showing two men flanking large goat or gazelle, their bodies with distinctive linear fill lines. In field: vulture, rhomb, spear and cylindrical vessel. Terminal: spade flanked by two branches. Next, a long and narrow Neo- Assyrian cylinder, divided into three horizontal registers: the central empty, the outer two similar but with inverted images to each other. Each with griffins(?) flanking sun-star standard. Behind, quadruped with object above. Length: 35.4 mm.; 47.1 mm. *Intact; the first with wear, the second pristine.*

Estimated value ..... \$500-600

*Interesting material; of good size, thus suitable for display. First ex. Hans Schulman.*

6004 **Interesting Cylinder Seal in Black Serpentine.** Syro- Cappadocian, of mixed styles, ca. 19th-18th century B.C. Seal shows two seated deities facing each other. One in plain garment wearing horned miter; a small stag beneath throne. The other (a goddess?), with stag-antlered headdress, holds object in hand. In field, sun-lunar staff and five pointed star. Second scene carved by another, less adept hand: two goats stand on either side of large standard surmounted by stag head. In field, man beside quadruped. Length: 31 mm. Large and intricate seal with a fascinating insight into the veneration accorded deer in ancient Turkey. *Intact and well preserved.*

Estimated value ..... \$400-550

# Ancient Greek Coinage

## An Introduction

The owner of the majority of these coins started collecting about 35 years ago when his 12-year-old son wanted a book to start collecting stamps. While purchasing the book, a young boy next to the consignor was buying a quarter dollar for about \$7.50. In the counter, below the quarter, sat a Roman Denarius, for sale at \$4.25. The consignor then asked the clerk why the ancient coin was so cheap compared to the quarter dollar, and was told it was because of “supply and demand.” For the purpose of conversation, the consignor figured he would buy two Denarii. The clerk, being a good salesman, suggested he also buy a book entitled *A History of Roman Emperors and Their Coins*. Upon reading it that night, our consignor tells us he was “hooked,” not just on the coinage but on the history, the emperors and the inflation that took place from the time of Christ to about A.D. 300.

In putting together this collection, his first objective was to get a coin or coins from every emperor, progressively upgrading the condition and quality as he went along. Having satisfied this first goal, our consignor then moved on to Roman Republic coins, attempting to attain coins from each moneyer. Eventually, he turned his attention to Greek coins, which he realized were really the classics. His objectives were to collect the various denominations from each city state, focusing primarily on the major areas, such as Egypt, Macedonia, Italy and Greece.

As in all collecting endeavors, during the early stages, this collector, like most, started with lower grades but eventually graduated to the finer coins wherever possible.

This collector believes one of the great rewards of collecting ancient coinage is in acquiring an intimate sense as to the way people lived, thought and socialized during the various periods of history and times in which these coins circulated. He particularly found pleasure and enjoyment from actually handling a two-thousand-year-old coin, gaining a “feel” for the period in which it was coined and gaining a tremendous admiration for the superb craftsmanship involved in producing these great works of art.
